

Application No.: 10/004847

Case No.: 57320US002

**Amendments to the Specification:**

Please amend the specification as follows:

On page 37, please replace the paragraph that starts on line 4 with the word "This" and ends on line 8 with the word "compound" with the following amended paragraph:

This invention provides compositions and methods for treating fibrous substrates to render those substrates durably repellent to water and oil and durably resistant to dry soil comprising a fluorochemical urethane formed by reacting a tri- or higher order isocyanate with a fluorochemical monofunctional compound; and optionally a non-fluorinated aliphatic monofunctional compound.

On page 37, please delete the paragraph that starts on line 9 with the word "The" and ends on line 17 with the word "disclosed".
